

Far Hills Association, Inc., 13 Blueberry Road, Ashburnham, MA 01430-1049

Notice for Seasonal FHA Members

If you are going to be gone for the winter, please make sure you have the Association shut off your water at the street.

We have had a number of events where homeowners shut off their water in the basement, but the valve froze, then broke, releasing up to thousands of gallons of water, costing all of us for water use, not to mention the damage to the basement. We are trying to do our best to avoid such events.

Please note that we no longer charge members for water shutoff or turn-on*. All we ask is that you be there for the shut-off so that we can confirm line drainage and complete shutoff. Then when you return in the spring, contact us to turn it back on, no charge. Once again, you will need to be there to confirm no open faucets or broken lines.

If you need your water shut off or turn-on for the season, please contact the FHA Water Director at water@farhillsassociation.com

Thanks!

Dave Urban
FHA Water Director
